

## Notes from the Sagebrush Federation Meeting

October 2022 - Baker

Benefits:

- Enlarges collections
- Resource sharing
- Networking support
- Sagebrush have been innovators for statewide services
- The strength of the group
- Financial resources

What's missing?

- More in-person trainings from MSL in our area

What would you change?

- Flow of funding for statewide services so that we're not receiving a check and then sending it back to the State for MSC, etc
- Distribution of federation funding could be more equitable instead of evenly split

Is the legislative intent still relevant?

- Sagebrush works well together – similar size, geographical concerns, staff size. So, yes.
